

Sadie Balsom

Junior Fullstack Developer

Profile

Recently graduated from Le Wagon coding bootcamp in Berlin, I'm a junior developer with a focus on web apps and software development. Research has always been one of my greatest passions, and I bring this enthusiasm to coding. I always need to be challenged to learn more!

Projects

BeWell

(forked from the original 'iWell' on GitHub) a web app for online therapy, using a RoR framework.

<https://agile-atoll-41432.herokuapp.com/>

The Astrology API

A read-only API built with Rails that scrapes horoscope data from several online publications.

<http://secure-lowlands-96111.herokuapp.com/>

Jamendo Radio

A simple React component that uses the Jamendo API to display albums based on user search queries
